PROFILE

Second-year Computer Science undergraduate specialising in Machine Learning, with hands-on experience building applications. Designed and implemented a social commerce platform for Sri Lankan artists using **FastAPI, React.js, PostgreSQL**, and including a **personalised recommendation feed** powered by machine learning concepts for the SDGP. Passionate about **backend and frontend development**, data-driven systems, and turning real-world problems into working software.

EDUCATION

BSc Computer Science <i>Informatics Institute of Technology</i>	2024 – present Colombo, Sri Lanka
Foundation Programme <i>Informatics Institute of Technology</i>	2023 – 2024 Colombo, Sri Lanka
GCE Advanced Level examination <i>Piliyandala Central College</i>	2019 – 2022 Piliyandala, Sri Lanka

SKILLS

Technical Skills

- **Programming Languages:** Python, SQL, Java, JavaScript (React.js)
- **Backend Development:** FastAPI, SQLAlchemy, PostgreSQL (Supabase)
- **Frontend Development:** React.js, Tailwind CSS
- **Data Analysis & Visualisation:** Pandas, NumPy, Plotly
- **Database Management:** MySQL, PostgreSQL
- **Tools & Methods:** Git, Scrumban

Analytical & Soft Skills

- Business problem analysis for university work: turning requirements into IT solutions
- Teamwork in academic group projects: planning, role allocation, coordination
- Customer-facing communication and teamwork toward targets

PROJECTS

IIT Academic Projects

- **Data Analysis & Visualization Projects** Conducted EDA on structured datasets using Python (Pandas, NumPy, Plotly) to identify patterns and trends.
- **SDGP (Software Development Group Project) — SoliasArt (Doing)**
 - Built **login, sign-up** frontend and **AR-based** artwork visualisation using React.js
 - Designed and implemented a unified social feed (posts and artworks) with likes, comments, saves using FastAPI and PostgreSQL
 - Built a **personalised ML recommendation feed** using content-based and collaborative filtering with a cold-start fallback for new users
 - Contributed to sprint planning and requirements documentation using Scrumban methodology

ACHIEVEMENTS & EXTRA-CURRICULAR

- **IEEE Xtreme 25** — Participant; supported the team mainly through **task coordination and organization**.
- Continuous learner involved in **self-study of AI and modern tools**.
- **Football** - participation in school level matches
- **ICT Competition** — **3rd Place, Divisional Level (2018)**
- **Mathematics Quiz** — **1st Place, Divisional Level (2017)**
- **St. John Ambulance** — **Preliminary First Aid Certificate (2013)**
Completed the Course of Instruction in Preliminary First Aid and passed the Proficiency Examination held by the National St. John Ambulance Association of Sri Lanka
